## Summary

Software developer with 6 years of experience in e-commerce and modern web applications. Experience developing solutions with Next.js, React, React Native, REST APIs and GraphQL, as well as back-end with Node.js and NestJS, using relational and non-relational databases. Seeking opportunities as a full-stack developer, focused on scalable and well-architected solutions.

## Professional experience

### Front-end developer

Company: **B8One**

Period: 10/2024 - 11/2025

Development, maintenance, and evolution of applications using VTEX IO and Wake Commerce. I have worked on projects for companies such as Acer, Milium, Decanter Vinhos, and KPMG.

**Stack:** VTEX IO, React, Typescript, Scriban, Javascript, Saas e GraphQL.

### Full-stack developer

Company: **dna360.ag**

Period: 07/2024 - 10/2024

Development and maintenance of web applications in the e-commerce sector. Experience in VTEX IO and Deco.cx projects such as: "Amigos do Bem", "WorldTools" and "MedShop".

**Stack:** VTEX IO, Deco.cx, React, Typescript, TailwindCSS.

### Front-end developer

Company: **Quality Digital**

Period: 07/2022 - 01/2024

I developed web applications for the e-commerce area. Creation of features and

maintenance of websites such as Vivara and Superpão using a Headless CMS system. Development of applications organized according to agile methodologies and code versioning.

**Stack:** NextJS, Jamstack, Typescript, GraphQL.

## **Front-end intern**

Company: **ACCT by Quality**

Period: 02/2022 - 07/2024

I developed web applications for the e-commerce area. Creation of features and maintenance of websites such as Chatuba and Obramax using the VTEX architecture. Creation of VTEXIO components and custom components. Consumption of GraphQL APIs. Review and maintenance of code based on established design patterns.

**Stack:** React, VTEX IO, Typescript, GraphQL, Scrum, GIT.

## **Quality assurance intern**

Company: **ACCT by Quality**

Period: 07/2021 - 02/2022

Analysis of project scope and lifecycle based on agile methodologies, exploratory and functional testing techniques. API, regression, and smoke testing. BDD-based scenario creation techniques. Bug analysis and reporting with evidence and test automation using Cypress.

**Stack:** BDD, Cypress, Scrum, GIT.

## **Academic background**

### **Systems analysis and development**
